Subject: **Brief Profile of Engineers Inspectorate India**

Dear Sir,

Engineers Inspectorate India accredited with ISO: 9001-2008 Certification is well established and experienced Third Party Inspection organization having highly qualified and experienced engineers of fields of Mechanical, Electrical, Civil, Chemical and Safety.

Since 1995, our team professionals are offering technical services to National and International companies in the field of Inspection, Examination, Calibration, Non destructive testing, Certification, Valuation, Chartered Engineer's Certification and Safety Training.

We have sufficient instruments, tools, and experienced technical staff. And have carried out numerous inspection, testing and certification of various equipment, machinery, structure, crane, pressure vessel and pipeline of almost all categories and capacities.

We are Income Tax Registered Valuer for Valuation of Land & Building, Plant & Machinery. We have carried out Valuation of large number of clients from various industries.

We are also Chartered Engineer and have issued numerous Chartered Engineer's Certificates after necessary verification for Custom, Central Excise, Bank, and as per clients need.
